

V-TWIN POWER. LIGHTNING STRIKES TWICE.

Unleash the two headed monster! Game over for any other ATV's claim to Boss status. With the industry's largest displacement engine ready to go anywhere or do any job, the all-new Thundercat is the most powerful ATV engine in production. Designed and manufactured by Arctic Cat, the 951 cc H2 engine is a 90-degree V-Twin, 4 valves SOHC liquid cooled, EFI (elctronic fuel injection) and the Duramatic Automatic transmission (with High/Low/Reverse/Neutral ranges).
